Cover Picture

The drawing on the cover this week will be familiar to everyone who lives in this area. The General Store of Mr. Ed Walsh which operated on Church St. for so long that it was almost a landmark. Mr. Walsh and Mrs. Walsh retired this year and the store is now gone from the scene. This is a water color and pen and ink drawing by Donald Jason, with thanks to James Maury for the photo from which it was drawn.

POPE PIUS XII

The passing of Pope Pius XII, leader of 500,000,000 Catholics throughout the world, means the loss of a great world champion of peace. Pope Pius XII was often called "the Pope of Peace" and for good reason. The moral force for good, the inspired leadership, has been felt in every part of the world, both free and on the other side of the iron curtain. Pope Pius XII, a scholar with great knowledge of world problems, never spared himself in all of his long life in the service of God. His inspiration to Catholics in godless dictatorships has been invaluable. His work and his efforts toward peace have been felt by all of mankind, and will continue to inspire men from this time forward.

FALL FASHION SHOW PRESENTED AT CENTER SCHOOL

The stage of the auditorium at the Mattapoisett Center School was most attractively decorated for Fall last Friday night when a fall fashion show, "Autumn Serenade", was presented by Cherry & Co. of New Bedford and sponsored by the Social Activities committee of the Mattapoisett Woman's Club. Fall foliage, pumpkins, guords, Japanese lanterns and fruits made an appropriate autumn setting.

A welcome was extended to the guests by Mrs. Donald C. Jason, vice-president. She introduced Mrs. Leon Lambert, the commentator, who described the new fashion trend. Hemlines and waistlines are up. The empire waist is very popular this year. Sheaths are still being shown and a lot of them with plain bodice fronts where the many-stranded necklaces that are so popular this year can be worn for the best effect.

First to appear on the stage were Mrs. John M. Souza, Jr. and her daughter, Janet, both attired in beige wool cashmere coats with beaver trim. Janet also modeled a red velvet hat and brown and blue plaid dress.

Other models were Mrs. Grace Engesser, president, Mrs. Louis B. Shurtleff, Jr., Mrs. Harry Locke, Mrs. William V. Knapton,

Mrs. Orum Kerst, Mrs. Marshall Ross and the teen-age styles were modeled by the Misses Joyce Green, Joyce Harrison and Nancy Walker.

Coats, suits, sportswear, daytime dresses and dressy dresses, with accessories of fur stoles, pocketbooks, hats, gloves and jewelry, were shown in many beautiful shades and styles. Many of the hats shown were the cloche which is very popular this year, and the always in style pheasant hats.

At the closing of the program nightwear was modeled by Mrs. Shurtleff, Miss Walker and Miss Harrison.

VISITED IN ROCHESTER

Ernest Heath of Springfield visited his cousin, Lottie Bradford, of Quaker Lane, Rochester.

MOON SHOT

The United States has come a long way in the rocket race since our rude awakening by the Russians caused us to make up for our neglect in this field. The Pioneer could not have been fired at a more appropriate time that at the very time that we celebrate Columbus Day. The fact that this rocket failed to reach its goal in an orbit around the moon is not nearly as significent as the achievement that it did realize. For the first time in history man has taken a step into true space. The Pioneer's instruments have relayed an invaluable mass of information about cosmic rays and meteorites, and presumably the composition and conditions of the void between the earth and the moon. Each effort makes the rocket science more sure. Each failure makes our rockets better and more likely to succeed. Although these rockets are now classed as weapons of war,

a use will develop which will prove invaluable to man. It seems to be a sad fact that the great advances in science are speeded up by the emergency of war -- hot or cold. The wonder is that the Communists with their lead in rocketry did not make this step into space first. If they had, we would not be allowed to forget the achievement for months to come and it can be presumed that they have tried. Our scientists are making great strides forward perhaps even justifying our educational system which produced them. In the same vein the competition between the services which produced the rockets may be justified also. It has been argued that the duplication of effort has been wasteful but if it is results that we are after, our society has no better solution. Our large corporations sometimes have three or four teams competing with each other on the solution of the same problem, each working in secret without knowledge of the other. If our private business is willing to duplicate effort and then pick the best solution, it might even work for the government. It seems to be paying off. No one can argue with success.

WOMEN'S GUILD HAS FIRST MEETING

"Families Are Fun" was the subject of the talk given by Mrs. Pierre DuPont Vuilleumier of Springfield at the first meeting of the Women's Community Guild of the Mattapoisett Congregational Church held last Tuesday afternoon at the Library.

Mrs. Vuilleumier, who was introduced by the program chairman, Mrs. George C. Bradley, Jr., said that all families should plan a time when they could all be together. Too many times families get so involved with outside activities that they lose contact with one another. She said that we should try to understand the wants and needs of the other members of the family. She also said that

GIBBONS SPEAKS ON OPEN MEETINGS OF PUBLIC BODIES

"Massachusetts taxpayers and residents have scored a major victory with final approval of legislation requiring open meetings of public bodies, but the present Governor has not demonstrated by his actions that he himself believes in the public's right to know" Charles Gibbons, Republican candidate for Governor charged last week.

"For years there has been a growing resentment against star chamber proceedings of elected and appointed boards and agencies of government.

"The administration on Beacon Hill erected road blocks and barriers to prevent view of public records which tell the complete story, but all of a sudden the Governor put his name to a new law which declares the public has a right to know what is going on in all branches of our government - state, county and municipal.

"The Governor can start at once to make this new legislation truly operative by ordering his many pals to grant to all citizens in general, and newspapers in particular, access to all public records.

"Actions, not meaningless endorsement of policy will demonstrate to a tax-burdened people that they have a 'right to know'"
